This big impressive mare entered our herd due to losing her rider. She is a full sister to the outstanding dressage stallion Polarion and our broodmare Pr.St Polarfee.

Polarion presented out of his first crop of foals five premium daughters and the stallion Grafenstolz, who passed a very good performance test and convinced how good he is with his first of very impressive foals in 2002. Polarion is now in England in Cirencester with Dr. Bechtholdsheimer, where he has started a very promising dressage career.

Polartraum is graded and is a much better mover than her grading marks suggests, she also passed an excellent mare performance test with the score of 7,65

Her sire E.H Stallion Van Deyk competed very successfully in dressage up to Grand Prix and established a new blossoming stallion line, which finds his basics in the dressage stallions Feingeist, Pomerol, Powerpoint, Handryk and Rastenbergl. He also passed a first class performance test and sired an impressive group of outstanding broodmares, which is stamped by his noble presence and riding qualities.

The mother line is a legendary one going back to one of the highest proven and oldest bloodlines of the black herd in the main stud Trakehnen. Polarfahrt herself was known as one of the best mares of all warmbloods in her years and founded a most popular family. Famous sires like Polarfurst, Polargeist and Polarpunkt are members of this bloodline.

Polartraum's grandfather Insterruf was reserve champion of his grading and became later on a leading sire in the American trakehner breed.

Polartraum's grandmother Pommern by Habicht was known as a very athletic powerful mare with a lot of winnings in three-day-events up to advanced level.

Polartraum combines the genes of the great sires Patricius xx and Ibikus on her father's side, with those of Habicht and Traumgeist on her mother's side. This is a very promising combination of the most proven competition bloodlines, which we hope to improve our herd with in the future.

Her foals are very like her in type and movement, good athletic horses.
