Bone:	
Passport:	German

Breeder:
Dr.Hartmut Zirpel
Biengartenstr. 44d
64653 Lorsch

Mare Family:
E22B Arcticonius xx
Wenzel-
Huckleswangen

Aida is a self confident prima donna with a tremendous way of moving and with very energetic up-hill tendency. A big strong beautiful mare, which really stand out and has a wonderful kind temperament.

Aida's sire E.H Sixtus was reserve champion of his grading in 1991, an international show jumper for Germany during his active career and at this point, sire of 14 approved sons and many high quality brood mares. Sixtus also holds the breed's highest show jumping index in terms of successfully competing offspring and also has several top event and FEI dressage offspring. Among the many successful sons that Sixtus has, Buddenbrock seem to be the new generation of Trakehner sports horses. His sire Habicht stands out as the Trakehner breed's most versatile producer with offspring in all three disciplines at international levels. Among his proven sons, the stallions Seeadler and Cocktail seemed to be the ones with a lot of dressage potential, while his son Windfall has become one of the most successful eventing stallion.

Aida's mother Andeer's sire E.H Stallion Marduc is still, years after his death, a leading dressage horse producer for the breed through numerous daughters and sons. The 3rd dam Pr.St.u.St.Pr.St Anne Karenina is a full sister to the stallions E.H Arogno and Avignon I and she is also a full sister to our residential stallion Arentino's dam E.St Arktis II. Anne Karenina is also the dam of the approved son Amatcho. The mare family originates from the Irish TB mare Arctoconius xx, which is one of only three TB mares in the Trakehner breed to have been awarded the Elite title.

PROGENY TO DATE 3/5 FOALS

2006: Singing Alondo, bay colt by Cadeau, retained by stud owner
