Singing Fraam

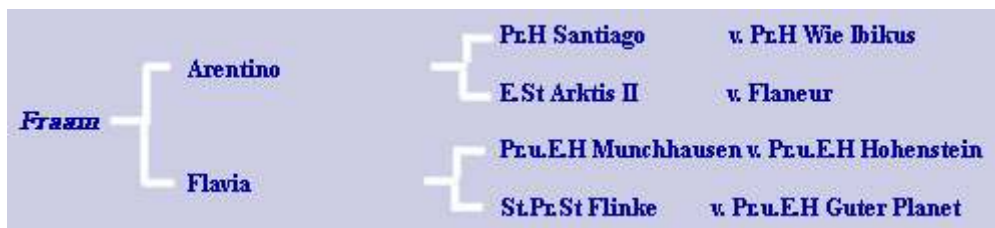

By Arentino
Out of Flavia
By E.H Munchhausen

Colour:	Bay
Born:	14.05.2010
Sex:	Colt
To Make:	168 cm
Passport:	English

Breeder:
The Singing Stud
Ross-On-Wye
Herefordshire
HR9 7RG
England

Mare Family:
E12B3 Feh
Gestut Grumbach

Fraam's dam Flavia was the Reserve Champion of the central mare grading in the breeding district of Rhineland-Palatinate/Saar and is an impressive looking mare with good frame and harmonious body proportions. She is very tall standing 172cm and has proven herself as a very high quality broodmare.

Her dam Flinke's sire Guter Planet is a maternal half brother to the Champion stallion Guter Stern and the Champion mares Gute Wahl, Gute Sitte and Gute Welt. Guter Planet was reserve Champion of the grading at Neumunster and is a proven and very versatile sport horse producer whose offspring win at advanced levels in dressage, eventing and show jumping. This G-family is known to have many graded stallions, premium mares and numerous Champions and is very well known for their wonderful ride ability.

The Feh-branch of the mare family also produced the approved stallions Ferlin, Ferlino, and Frohsinn as well as the S-level show jumper Feuervogel.

Flavia's sire E.H Münchhausen TSF was the Champion of his grading in 1997 and the winner of his stallion performance test in Neustadt/Dosse with an amazing 149.30 points. He also won the National Riding Horse Championships, placed at the Bundeschampionat, won the Reserve World Champion title at the FEI Young Dressage Horse Championships in Verden and finally, in 2005, was selected for the Danish Team and participated at both the European Championships in Hagen/Germany, as well as the CHIO Aachen with his Danish rider Fie Skarsoe. A popular sire from the very beginning, he is graded for almost all European Stud Books and has several graded sons in Westfalia, and sons Sambatänzer, Meraldik and Mon Baron in the Trakehner breed. Many of his daughters have received premium status and with his first crop of riding horses coming into the right age now, several pop up as excellent dressage talents, e.g. the gelding Garbor (Bundeschampionat 2005) and the mare Media Luna (FEI World Championships, Bundeschampionat and now at S level). Münchhausen TSF is the most successful of the many Hohenstein sons in the breed. His dam Mohnblüte is an in hand Champion mare and her sire, the black premium stallion Königsstein, although not very well known, has made a name for himself. Second dam sire Arrak was a direct Ibikus son and produced horses for the highest levels in all three disciplines, e.g. the Olympic dressage horse Merlin TSF with Carolin Hatapla/Austria.

Fraam's Sire Arentino was competed in Prix St. George dressage and did also really well in show jumping. Arentino's Sire Santiago by Wie Ibikus and out of the foundation mare Schwalbelied was Champion of his grading in 1980 and was a very substantial big framed grandson of the legendary stallion Ibikus, which went on to become a very good showjumper. Wie Ibikus himself produced a big number of high successful dressage horses competing up to Grand Prix. Santiago produced some outstanding broodmares and the value can be seen in his offspring's competition results.

Arentino's Dam Arktis II presents herself as one of the valuable broodmares of the trakehner breed, being a full sister to the stallion Arogno, sire of the stallions Schwadronneur (now dead) and Anky's stallion Partout.

Arentino is the Sire of two graded sons in the UK and in 2010 had the overall Supreme Champion and Overall Reserve Supreme Champion with his two only foals born that year in New Zealand of all horses evaluated in the hole of New Zealand.

Singing Fraam has true Trakehner type with a perfect conformation and wonderful uphill powered lift in all his gaits.

A true stallion prospect that will be staying here at the stud.
