**Mare Family:**  
O236 Freia

Wow what a big strong boy. Ulan is a very beautiful all black gelding with just little white on his forehead, he is very correct in conformation and has wonderful floating movements

Ulan's sire Arentino was competed in Prix St. George dressage and did also very well show jumping. Arentino's sire Santiago by Wie Ibikus and out of the foundation mare Schwalbelied was Champion of the grading in 1980 and was a very substantial big framed grandson of the legendary stallion Ibikus, which went on to become a very good show jumper. Wie Ibikus himself produced a big number of high successful dressage horses competing up to Grand Prix. Santiago produced some outstanding broodmares and the real value can be seen in his offspring's competition results.

Arentino's dam E.St Arktis II presents herself as one of the valuable broodmares in the Trakehner bred today, being a full sister to the stallion Arogno, sire of the stallion Schwadronneur (now deceased) and Anky's stallion Partout. Arktis's offspring are doing well in 3 days event and dressage competing in Prix St. George.

Ulan's dam Ullalla is by the stallion Schneekoenig, which competed successfully in 3 day event and was sold to America, where he is very popular today. The stallions Unesco (advanced show jumper), Uljanoff (Reserve Champion of his grading) and the dressage stallions Uckermacker and Ursprung are members of this wonderful family.

This is a very quiet and sweet boy, which is very impressive to, Ulan will make a very good sports horse.
