England

**Mare Family:**  
O236 Freia

This time, a beautiful black filly with a wonderful temperament.

Ullana's sire Arentino was competed in Prix St. George dressage and did also very well showjumping. Arentino's sire Santiago by Wie Ibikus and out of the foundation mare Schwalbelied was Champion of the grading in 1980 and was a very substantial big framed grandson of the legendary stallion Ibikus, which went on to become a very good showjumper. Wie Ibikus himself produced a big number of high successful dressage horses competing up to Grand Prix. Santiago produced some outstanding broodmares and the real value can be seen in his offspring's competition results.

Arentino's dam Arktis II presents herself as one of the valuable broodmares in the Trakehner bred today, being a full sister to the stallion Arogno, sire of the stallion Schwadronneur (now deceased) and Anky's stallion Partout. Arktis's off spring are doing well in 3 days event and dressage competing in Prix St. George.

Ullana's dam Ullalla is by the stallion Schneekoenig, which competed successfully in 3 day event and was sold to America, where he is very popular today.

The stallions Unesco (advanced show jumper), Uljanoff (Reserve Champion of his grading) and the dressage stallions Uckermacker and Ursprung are members of this wonderful family.

This is a very quiet and sweet filly, which is very impressive to, Ullana will make a very good sports horse or a fantastic broodmare.
