Breeder:
Tomaso Busachi
Ponte Alto
Via Imperiale 5
I-43040 Lentigione
(RE)
Ausland

Mare Family:
0236 Freia
Schulemann-
Hamburg

This stunning mare got quality and is a very lovely mover. She is so kind and gentle and we have chosen her to stay in the herd for her outstanding bloodlines as well as for her movements.

Her Dam's pedigree is very well known for their outstanding riding ability and for breeding many Champion mares and Stallions. (For more information please refer to Umbria's page)

She has top bloodlines for dressage and we have had an International rider/trainer say that she is a mare with potential for the International dressage circuit.

Her Sire Caprimond is quite a symbol for the modern Trakehner breed. He founded a new blossoming branch of the world-famous Flaneur-Arogno-sire-line. Caprimond was Reserve Champion of the grading, winner of the performance test, also Reserve Champion of the National German riding horse championship, winner of many Grand Prix dressage tests and now out winning again with his new partner, 14 year old Theresa Wahler. Caprimond is the sire of 12 graded sons and a big number of outstanding mares. Donaumarchen I and II, members of the Supreme Champion family of the National German brood mare show, are two of his exciting daughters. Caprimond has established type, beauty, easy and kind temperament, elastic movements and high potential riding ability in this breed. He is a stamping Sire, a real founder for the whole breed, a Sire, which is only once born in 50 years. This bloodline really combines everything what you desire in a top class Trakehner competition horse, and Caprimond is nearly legendary for passing on brilliant Trakehner type and outstanding riding ability. He keeps one of the highest scores in the Hannoverian breed as well as his son Hohenstein.

This filly holds the wonderful combination of bloodlines with the genes of Velasquez, again proven for his riding ability and 3rd Sire Schneekonig known for being very athletic and powerful.

Her foals certainly carries on the power in movement with high knee and hock action and they are a real pleasure to watch.

PROGENY TO DATE 5/5 FOALS

- 2003 Singing Ultraelegance, bay filly by Arentino, sold to Oxfordshire, England
- 2004 Singing Ultraflash, bright bay colt by Arentino
